EDUCATION

Skidmore College Saratoga Springs, NY
B.S. Computer Science, Minor in Mathematics and Economics | GPA: 3.88/4.00 | Expected Graduation: May 2027
Honors: Dean's List, Fall 2023, 2024, 2025 and Spring 2023, 2024

CIE Barcelona, Business + Culture Barcelona, Spain
Study abroad: economics, Spanish culture, and advanced computer science | Jan 2026 - Apr 2026

RELEVANT EXPERIENCE

Skidmore Soccer and Hockey Saratoga Springs, NY
Data Analytics Volunteer | October 2026 - Present

- Give coaches live in-game insights at hockey games to support tactical decisions
- Design dashboards that give soccer and hockey coaches clear post-game analysis of team performance

IL-Team Studio Barcelona, Spain
Product Design & UX Intern (In Person and Remote) | Jan 2026 - Present

- Aggregated and analyzed brand, trend, and market research across European fashion markets to inform product and design decisions
- Conducted competitive analysis of European fashion brands, translating findings into structured, decision-ready insights
- Built client-facing prototypes and pages to test and communicate research findings with stakeholders, iterating based on feedback

DATA PROJECTS

Telco Churn and Revenue-at-Risk Analysis
SQL & Tableau - Which segments are churning, and what is it costing?

- Segmented churn for ~7,000 telecom customers and ranked the riskiest segments by annualized revenue at risk, not just churn rate
- Built a retention ROI scenario (campaign cost, breakeven rate) and published a Tableau dashboard with a one-page executive summary

NFL Position Value
Which positions are worth paying for? - Interactive Dashboard and Case Study

- Analyzed salary-cap spend by position against team success across 416 team-seasons (2013-2025) to show where extra spending stops paying off
- Found starter-QB spend gains level off near $19M and delivered an interactive dashboard on Vercel for non-technical readers

Dynasty Fantasy Football Evaluator
Live Data Dashboard Integrating External APIs

- Built and deployed a live dashboard integrating real-time data from the Sleeper API and DynastyProcess datasets to evaluate fantasy dynasty teams on ADP rank and projected points
- Designed the pipeline connecting external APIs to a React front end, handling data normalization and transformation

Developer Career Path Analysis
Python & Statistical Analysis - 2025 Stack Overflow Developer Survey

- Analyzed 49,000+ developer survey responses across 178 fields to test assumptions about what predicts salary and job satisfaction, catching and correcting a methodology pitfall in the raw data along the way
- Verified findings including a degree salary premium narrowing from 52% to 11% over a decade, presented in an interactive React/Recharts report on Vercel

SKILLS

Technical: SQL (PostgreSQL, DuckDB), Python (pandas), Java, C, Tableau, dashboards, KPI reporting, segmentation, Git/GitHub

Additional: React, Figma, Vercel, Supabase, stakeholder communication, data storytelling

LEADERSHIP

Skidmore College, Department of Computer Science Saratoga Springs, NY
Learning Assistant, Computer Organization | August 2026 - December 2026

- Supported student learning in computer organization coursework covering architecture, assembly, and low-level systems concepts
- Held office hours and review sessions, helping students debug code and work through problem sets

Skidmore Outdoor Orientation Program (SCOOP) Lake Pleasant, NY
Peer Leader | August 2024 - Present

- Guided first-year students through outdoor orientation; coordinated logistics, safety protocols, and group culture

Iverbe Day and Sports Camp Culver City, CA
Head Counselor | June 2022 - August 2025

- Designed and implemented weekly activity schedules, increasing camper participation in structured programs by 30%

Activities: FinanceMore, Investment Club, Skidmore Codes
