EDUCATION

Skidmore CollegeExpected Graduation: May 2027

B.S. Computer Science, Minor in Mathematics and Economics · GPA: 3.88/4.00Saratoga Springs, NY

Honors: Dean's List, Fall 2023, 2024, 2025 and Spring 2023, 2024

CIE Barcelona, Business + Culture, Jan 2026 – Apr 2026

Study abroad: economics, Spanish culture, and advanced computer scienceBarcelona, Spain

RELEVANT EXPERIENCE

IL-Team Studio, Jan 2026 – Present

Product Design & UX Intern (In Person and Remote), Barcelona, Spain

- Designed and built multiple client-facing websites, translating brand and market research into functional, production-ready pages
- Created high-fidelity UI prototypes in Figma to pitch mock products to potential investors, iterating designs based on stakeholder feedback
- Conducted competitive analysis of European fashion brands' UI/UX, identifying pricing, positioning, and design patterns that directly informed prototype decisions
- Collaborated with a cross-cultural team in Barcelona to align design output with market research and business strategy

UX/UI PROJECTS

Skidmore Course Registration Portal RedesignGitHub / Vercel

UX Case Study & Interactive Prototype

- Redesigned Skidmore's course registration experience end to end, from problem framing through a fully interactive Next.js prototype
- Developed a custom "registrar's ledger" visual identity and design system to give the case study a distinct, cohesive point of view
- Documented the design process and rationale in a case study README, and deployed the working prototype via GitHub and Vercel

DynastyEvaluatordynasty-fantasy-football-dashboard.vercel.app

Fantasy Football Analytics Dashboard (Product Design & Front-End)

- Designed and built an interactive React dashboard interface for dynasty fantasy football managers, prioritizing clarity of complex, multi-source data
- Integrated live data from the Sleeper API and DynastyProcess to keep the interface useful and current for real league decisions
- Deployed and iterated on the live product on Vercel based on real usage in a 12-team league

NFL Win Probability ModelVercel

Interactive Data Visualization (React / Python)

- Designed and built an interactive React visualization layer to communicate a Python/XGBoost win-probability model's output in real time
- Translated a technical machine-learning pipeline into an approachable, story-driven interface, prioritizing clarity over raw model complexity
- Owned the front-end experience end to end and deployed it on Vercel

SKILLS

Design: Figma, high-fidelity prototyping, wireframing, competitive UI/UX analysis, design systems, usability-focused iteration

Technical: React, Next.js, HTML/CSS, JavaScript, Python, SQL, Git/GitHub, Vercel

WORK EXPERIENCE

Iverbe Day and Sports Camp, June 2022 – August 2025

Head Counselor, Culver City, CA

- Directed daily camp operations for groups of 20+ children ages 5–12, ensuring safety and engagement
- Designed and implemented weekly activity schedules, increasing camper participation in structured programs by 30%
- Trained and supervised 5+ junior counselors, improving staff performance and consistency of camper experience

Self Employed, June 2020 – Present

Child Care Professional, Culver City, CA & Saratoga Springs, NY

- Supervised up to 3 children ages 5–10, ensuring safety and healthy routines during meals, bedtimes, and recreational time

LEADERSHIP

Skidmore Outdoor Orientation Program (SCOOP)August 2024 – Present

Peer Leader, Lake Pleasant, NY

- Guided first-year students through outdoor orientation; coordinated logistics, safety protocols, and group culture

Skidmore Intramural (IM) SportsAugust 2023 – Present

Referee and Captain, Saratoga Springs, NY

- Officiated basketball, volleyball, and soccer; led teams through high-pressure situations and conflict resolution

ACTIVITIES, LANGUAGES, AND INTERESTS

Activities: FinanceMore, Investment Club, and Skidmore Codes

Interests: Football, dynasty fantasy sports, hiking and the outdoors, sports analytics
